Dear Licensed Veterinarian, _____ adopted a horse from Circle L Rescue.
(adopter's name)

We require information pertaining to the horse's condition semi-annually from the attending veterinarian, as per the adoption/caregiver contract. This ensures the well-being of our adopted animals. Thank you for your cooperation and comments.

VETERINARY FOLLOW-UP REPORT FORM

This form to be completed by a licensed Veterinarian only

Horse: _____ Tattoo: _____ Age: _____ Sex: _____

Color: _____ Size: _____ Markings: _____

1. Is the horse on adequate worming program? Y N Date of last worming: _____

2. Is the shelter and turnout adequate for the horse? Y N

3. Teeth *(please circle one)*: Recently Floated Adequate Needs Attention

4. Hooves *(please circle one)*: Recently Trimmed Well cared For Adequate Needs Attention

5. Use of the horse: _____

6. Horse is: *(please circle one)* At Home or Boarded -Street Address of horse: _____
City _____ State _____ Zip _____

7. Please note any visible signs of lameness, and any issues you may be addressing with adopter:

8. Please ask the adopter for the approximate date of adoption/receiving the horse into their care: _____

9. Check the condition of horse on the chart below:

CONDITION	NECK	WITHERS	LOIN	TAILHEAD	RIBS	SHOULDER
1 POOR	Bone structure easily noticeable Animal extremely emaciated; no fatty tissue can be felt	Bone structure easily noticeable	Spinous processes project prominently	Tailhead (pinbones) and hook bones projecting prominently	Ribs projecting prominently	Bone structure easily noticeable
2 VERY THIN	Faintly discernible Animal emaciated	Faintly discernible	Slight fat covering over-base of spinous processes. Transverse processes of lumbar vertebrae feel rounded. Spinous processes are prominent	Tailhead prominent	Ribs prominent	Faintly discernible
3 THIN	Neck accentuated	Withers accentuated	Fat buildup halfway on spinous processes but easily discernible. Transverse processes cannot be felt	Tailhead prominent but individual vertebrae cannot be visually identified. Hook bones appear rounded, but are still easily discernible. Pin bones not distinguishable	Slight fat cover over ribs. Ribs easily discernible	Shoulder accentuated
4 Moderately THIN	Neck not obviously thin	Withers not obviously thin	Negative crease along back	Prominence depends on conformation, fat can be felt. Hook bones not discernible	Faint outline discernible	Shoulder not obviously thin
5 MODERATE	Neck blends smoothly into body	Withers rounded over spinous processes	Back level	Fat around tailhead beginning to feel spongy	Ribs cannot be visually distinguished but can be easily felt	Shoulder blends smoothly into body
6 Moderately FLESHY	Fat beginning to be deposited	Fat beginning to be deposited	May have slight positive crease down back	Fat around tailhead feels soft	Fat over ribs feels spongy	Fat beginning to be deposited
7 FLESHY	Fat deposited along neck	Fat deposited along withers	May have positive crease down back	Fat around tailhead is soft	Individual ribs can be felt, but noticeable filling between ribs with fat	Fat deposited behind shoulder
8 FAT	Noticeable thickening of neck Fat deposited along inner buttocks	Area along withers filled with fat	Positive crease down back	Tailhead fat very soft	Difficult to feel ribs	Area behind shoulder filled in flush with body
9 Extremely FAT	Bulging fat Fat along inner buttocks may rub together. Flank filled in flush.	Bulging fat	Obvious positive crease down back	Building fat around tailhead	Patchy fat appearing over ribs	Bulging fat

Henneke System of Body Condition

- | | |
|-------------------------------------|-------------------------------|
| A. Along the neck | D. Tailhead |
| B. Along the withers | E. Ribs |
| C. Loin/Crease down the back | F. Behind the shoulder |

Add all scores and divide by six.
